

Its time to say goodbye to winter and say hello to spring. Bright days, blossoming flowers and happy children.

We are part of a community and community is valuable for us. We all are responsible for our world and community we live in. We try to incorporate this philosophy in our program, so that our children broaden their understanding of the world they live in,

The events of Farmer day and Father's Day, which we celebrated last month are the example of our effort.

We had Discussion with our children about farmers life, their contribution in our lives and hardship they are facing because of drought. We encouraged families to donate to the cause and were amazed by their generosity

Father's Day was another happy event to celebrate children love for their fathers. Our children practiced songs to express their love for their dads. We hope all the dads felt loved and happy with their little presents.

Besides all theses events we include early literacy and numeracy in our daily program and do various play-based activities. To teach them concept of texts and early Math's.

Please feel free to talk to us if you have any concerns or ideas. Thanks heaps Rina Julia.
