

*I love music yes, I do. We love music how about you...*

*We support our music program from a teacher known as swaggie man and it has been very popular. The children are eager to participate on Friday mornings and we see the benefits they have acquired. The children are learning new musical instruments and how to play with them. We practice making musical rhythms from sticks, bells, drums and simply with our hands. We also learnt how to dance to musical rhythms.*

*At the start of our lesson we sing our song "I love music yes I do" when the swaggie man plays the guitar.*

*We play the rhythms with sticks and we dance to popular music.*

*QKLG learning outcomes*

*Wellbeing – Interest in and desire to interact with others*

*Active learning – ways to creatively represent ideas, feelings and experiences.*
