

Hello and Welcome everyone

This year is sure going by quickly and everyone is getting a bit excited with Christmas just around the corner.

In Blossoms room, we are encouraging children to make healthy choice. Healthy food choices are important for growing minds and bodies. Explaining to children where fruits and vegetables come from and having them, help them, choose them at the shop, or from the garden and great ways of encouraging them to be involved in what they eat. To encourage children to make healthy choices, this month we will be focusing on learning about fruits and vegetables by doing different activities, e.g. fruits and vegetable flash cards, drawing fruits and vegetable (observational drawing) and discussion at group time about healthy eating.

We have also been focusing on learning letters and numbers enhancing children's social skills to get them ready for Kindergarten.

With Christmas, just around the corner, we will be staying over Christmas craft, so if you have any suggestion, please feel free to let us know.

Thanks heaps,
Rina, Mary & Sim
